SOLID WASTE FACILITY PERMIT NO.

13-AA-004

FACILITY NAME

Calexico Solid Waste D.S.

OPERATOR

County of Imperial - Dept. of Public Works

FACILITY LOCATION

New River and Highway 98

PROPOSED

SSWMB APPROVAL

DATE

7-20-79

ENFORCEMENT AGENCY APPROVAL

FINDINGS

1. This facility is an existing prior to August 15, 1977, 78 acre Class II landfill; site life is expected to be 19+ years. The area landfill method of operation is utilized. The facility is located at the southwest corner where the New River and Highway 98 cross each other 6 miles west of the City of Calexico. The disposal site receives approximately 63 tons per day. The site is open 24 hours a day 7 days a week with site operator present from 7:30 to 3:30 Monday through Saturday. Permitted salvaging occurs at the present time.

Types of wastes received at the site include:

- a. Residential/commercial waste.
- b. Tires
- c. Construction/demolition wastes
- d. Septic tank pumpings, and chemical toilet waste
- e. Limited Geothermal drilling muds which are accepted upon approval of Regional Water Quality Control Board and are spread over existing cells.
- f. Empty pesticide containers which upon certification of the County Agricultural Commissioner, have been triple rinsed and punctured prior to being transported to the site where they are placed in a separate fenced trench.

2. Design and operation of this facility are as specified by the Report of Disposal Site Information dated August 15, 1977. That which pertains to the period immediately prior to August 15, 1977, is hereby made a part of this Finding. There are no proposed significant changes in design or operation.
3. Land within 1,000 feet of the site is zoned A-2.
4. This facility's design and operation are currently in substantial compliance with State Minimum Standards and with Conditional Waiver 79-143 as determined by physical inspection made on June 20, 1979, except for violations of sections 17646, 17682, 17707, and 17726. The conditions of this permit establish an appropriate schedule for compliance with those sections. See attached Conditional Waiver of Provisions section.

This permit is granted solely to the operator named above, and is not transferable. Upon a change of operator, this permit is subject to revocation. Upon a significant change in design or operation from that described in this permit or in attachments thereto for the existing design and operation of a facility operating immediately prior to August 15, 1977, or from the approved intended design and operation of a facility which was not operating prior to August 15, 1977, or which herein is granted a permit modification, this permit is subject to revocation, suspension, modification or other appropriate action.

This permit does not authorize the operation of any facility contrary to the State Minimum Standards for Solid Waste Handling and Disposal. This permit cannot be considered as permission to violate existing laws, ordinances, regulations, or statutes of other government agencies.

DATE

Calexico Solid Waste Disposal Site  
Imperial County

13-AA-004

5. This permit is consistent with the Imperial County Solid Waste Management Plan and with the State Minimum Standards for Solid Waste Handling and Disposal
6. The following documents condition operation of this facility:
  - a. California Regional Water Quality Control Board Colorado River Basin Region: Waste Discharge Requirements No. 70-38.
  - b. Internal memo from Alvin L. Franks, Division of Planning and Research to Will Ponder, Colorado River Basin Region regarding the disposal of drilling muds.
  - c. Lease agreement between the Imperial Irrigation District and the County of Imperial Public Works.
  - d. Regional Water Quality Control Board letter of June 29, 1979, pertaining to disposal of drilling muds.

CONDITIONS:

A. Requirements:

1. This facility must comply with the State Minimum Standards for Solid Waste Handling and Disposal.
2. This facility must comply with all federal, state, and local requirements and enactments.
3. Additional information concerning the design and operation of this facility must be furnished upon request of the enforcement agency.

B. Prohibitions:

The following actions are prohibited at the facility:

1. Disposal of Hazardous Wastes
2. Open Burning
3. Scavenging

C. Specifications:

No significant change in design of operation from that described in items 1 and 6 of the Findings section is allowed, except for those changes which are required under the Conditions portion of this permit.

D. Provisions:

The attached Conditional Waiver which is made a part of this permit by reference, establishes an appropriate schedule for compliance with 14 California Administrative Code, section 17646, 17682, 17607, and 17726.

Disposal of drilling muds at this site is approved for a period of 18 months from the date of permit issuance. An extension of time beyond 18 months is contingent upon Imperial County expediting establishment of a Class II-1 site for geothermal wastes. Before additional drilling muds are deposited at this site, the discharger shall present a certificate signed by the Regional Water Quality Control Board, Colorado River Region, which states that the "wastes have been approved for disposal," as per item # 1 of the Regional Water Quality Control Board memo dated June 7, 1979.

This permit is subject to review by the enforcement agency and may be suspended, revoked, or modified at any time for significant cause.

Self Monitoring Program:

The following items shall be monitored by the operators of this facility or his agent and records shall be kept and made available to the enforcement agency upon request.

1. Quantity and types of wastes received at the site per week day and quarter.
2. Area of site utilized twice a year.
3. Quantity and types of wastes salvaged per quarter as applicable.
4. Number of vehicles utilizing the site per week and per quarter.
